

**Listing of Claims:**

1

1 **Claim 1.** (currently proposed amended) A pet food storage container, comprising:

2 a housing defining a main chamber and an opening for accessing said main  
3 chamber, said main chamber defining a height, said housing defining an outer surface  
4 having a bottom wall and two side walls;

5 a tray pivotally attached to said housing side walls, said pivotal attachment  
6 comprising a pair of arms in spaced relation extending from said tray to each pivotally  
7 attach to one said side wall;

8 a platform movable along said height;

9 elevation adjusting means attached between said platform and said housing, said  
10 elevation adjusting means configured to move said platform along said height, said  
11 bottom wallside configured to prevent said elevation adjusting means from extending  
12 through said housing; and

13 a lid configured to cooperate with said housing to close said opening.

1 **Claim 2.** (currently proposed amended) The container of Claim 1, wherein said  
2 housing further comprises at least one rolling means for enabling said housing to be  
3 rolled disbursed on said housing, said rolling means comprising a pair of wheels, said  
4 wheels having a rolling surface extending downwardly below said bottom wall.

1 **Claim 3.** (original) The container of Claim 2, further comprising a first handle  
2 extending generally upwardly from said housing.

1 **Claim 4.** (canceled)

1 **Claim 5.** (previously presented) The container of Claim 3, wherein said elevation  
2 adjusting means comprises at least one biasing device.

1 **Claim 6.** (canceled)

1 **Claim 7.** (canceled)

1 **Claim 8.** (canceled)

1 **Claim 9.** (currently proposed amended) The container of Claim ~~5~~7, wherein said  
2 housing is further defined by a front wall, said container further comprising a second  
3 handle extending from said front wall.

1 **Claim 10.** (original) The container of Claim 9, further comprising at least one auxiliary  
2 container disposed on at least one said side wall or front wall.

1 **Claim 11.** (original) A combination vendor pet food package and mobile pet food  
2 storage container, the combination comprising:  
3 a vendor pet food package comprising a bag defined by a bottom, a top and an  
4 opening at said top; and

5 a mobile pet food storage container comprising a housing defining a main  
6 chamber, at least one wheel extending from said housing and a platform configured for  
7 resting said package thereon, said platform attached to said housing in said main  
8 chamber.

1 **Claim 12.** (original) The combination of Claim 11, wherein said mobile pet food storage  
2 container further comprises a tray hingeably attached to said housing.

1 **Claim 13.** (original) The combination of Claim 12, wherein said housing is further  
2 defined by a rim creating an opening for accessing said main chamber, said mobile pet  
3 food storage container further comprising a lid attached to said housing.

1 **Claim 14.** (original) The combination of Claim 13, wherein said lid further comprises a  
2 sealing gasket means for creating an airtight seal between said lid and said housing.

1 **Claim 15.** (original) The combination of Claim 14, wherein said mobile pet food storage  
2 container further comprises a first handle, said first handle attached to said housing by at  
3 least one telescoping strut extendable therefrom.

1 **Claim 16.** (currently proposed amended) A mobile pet food storage container,  
2 comprising:

3

4 a housing defining a main chamber and an opening for accessing said opening,  
5 said main chamber defining a height;

6 a platform movable along said height;

7 elevation adjusting means attached between said platform and said housing, said  
8 elevation adjusting means configured to move said platform along said height, said  
9 elevation adjusting means fully contained within said housing without the ability of  
10 protruding outwardly therefrom;

11 a tray extendable from said housing; and

12 a lid configured to cooperate with said housing to close said opening, said housing  
13 further comprising a gasket disposed between an upper rim defining said opening and  
14 said lid.

1 **Claim 17.** (original) The container of Claim 16, wherein said housing is defined by a  
2 pair of side walls and said tray further comprises an attachment device attached to each  
3 said side wall.

1 **Claim 18.** (currently proposed amended) The container of Claim 17, wherein said  
2 attachment devices comprise pivotable connections between a pair of arms extending  
3 from said tray, said arms having first ends pivotally connected to and said side walls, and  
4 second opposing ends rigidly attached to said tray.

1 **Claim 19.** (original) The container of Claim 18, wherein said housing further comprises  
2 at least one rolling means for enabling said housing to be rolled disbursed on said  
3 housing.

1 **Claim 20.** (original) The container of Claim 19, further comprising a first handle extending  
2 generally upwardly from said housing.
